Reference Letter

We hereby confirm that ESKM performed the Partial Discharge Measurements at SHAMB and TATEV Generators (Vorotan Cascade) in August 2021.

The ESKM team performed the

- pre-coordination activities with ContourGlobal
- installation of the test equipment
- execution of the measurements
- setup of the final reports

All activates was executed in very professional manner, in time and to the full satisfaction of Voith Hydro GmBH Austria.
